**2017 Student Success Scorecard
Disaggregated Results**

The chart below illustrates the disaggregated results of the 2010-11 through 2015-16 Student Success Scorecard cohort with the exception of the Skills-Builder and Transfer Level cohorts. The Skills-Builder cohort reporting cycle is 2013-14, and represents wages one year before and one year after the cohort. The Transfer Level cohort reporting cycle is 2014-15 and represents the percentage of students attempting/completing transfer level English/Math in one or two years. Metrics are shown across the page and the results for demographic subgroups are shown down the columns. Within each metric, colors indicate where subgroup results varied from the overall cohort results by more than 20% - green where subgroup rates were higher or red where they were lower. Rates depicted in smaller italicized grey print indicate groups of fewer than 30. Cells with "0%" indicate that no students attained the outcome, while cells with "N/A" indicate the demographic subgroup contained no students.

¹ Completion, Persistence and 30 Unit metrics are further separated by whether the student was prepared or unprepared. These metrics are defined as the percentage of first-time degree, certificate, and/or transfer seeking students who completed a degree, certificate, or transfer related outcome with six years.

² Rate in which median earnings change one year prior to one year after cohort. The median percentage change in wages for students who completed higher level CTE coursework and left the system without receiving any type of traditional outcome such as completed a degree, certificate, or transfer related outcome.

³ The percent of first-time students in 2014-15 who complete 6 units and attempt any Math or English in their first year who complete a transfer-level course in Math or English in their first or second year.

¹ Completion, Persistence and 30 Unit metrics are further separated by whether the student was prepared or unprepared. These metrics are defined as the percentage of first-time degree, certificate, and/or transfer seeking students who completed a degree, certificate, or transfer related outcome with six years.

² Rate in which median earnings change one year prior to one year after cohort. The median percentage change in wages for students who completed higher level CTE coursework and left the system without receiving any type of traditional outcome such as completed a degree, certificate, or transfer related outcome.

³ The percent of first-time students in 2014-15 who complete 6 units and attempt any Math or English in their first year who complete a transfer-level course in Math or English in their first or second year.
